Mark 22nd January 2016 4.56 Gave up on it for one reason only: does not open at all! It had an excellent, basic introduction to it and what to do with it, but when it tried to open, it crashed right on startup. I found it annoying it doesn't say anything in the case of this issue, so I couldn't see how to check that it was a problem. This was a very good tool, and I would recommend it for anyone who wishes to either lock or unlock a folder easily. Uzair 25th July 2016 5.00 Nifty Arvind 23rd June 2016
