If it's from the internet, you can open most of these and then update the information yourself. Note that you may need to reinstall these programs after you upgrade. Plus, the "CUPS Driver Installation" program might have left more than a few things behind when it did its installation. You'll have to locate these things yourself, either manually or by using something like Add or Remove Programs in the Control Panel. If there are problems with updating or if you haven't been able to find all the programs you need or you don't want to put them all back, you can install a whole new installation of Windows. Microsoft offers free downloads for clean installations of Windows, including Windows 10. For instructions on how to use the Windows 10 installation disc, go to this Microsoft support page. Microsoft did a very good job in providing applications and updates with Windows 7. You can download the applications and updates for Windows 10 from the Microsoft Store for free. For applications not available in the Microsoft Store you will need to create a free account in the Microsoft Store, which will allow you to buy Microsoft apps. The Microsoft Store also enables you to download software and updates for Windows 7 and Windows 8.1 for free. If you are installing a new program, you may want to back up your files just in case.
