

A: I just tested and I see the same behavior as you, I couldn't click anywhere even after clicking all the way down to "Uninstall Packages". I think the problem is that you can't click on the actual package name, and it looks like the package name is automatically given the "Software" type. When I tried to select the "regedit" package, I was unable to select it. I would file a bug report. Q: Adding an event to a checkboxgroup and using the event handler I'm trying to add an event to a group box and then use the Eventhandler withing the window message function, however when i try to run this the cbox doesnt seem to get highlighted! Any ideas what i have messed up on here? Private Sub button1_Click(sender As Object, e As EventArgs) Handles button1.Click Cbox.Checked = False Cbox.Checked = True End Sub Private Sub Cbox_CheckedChanged(sender As Object, e As EventArgs) Handles Cbox.CheckedChanged MsgBox("it worked") End Sub Private Sub Form1_Load(sender As Object, e As EventArgs) Handles MyBase.Load 'Group Boxes cboxBillNo.CheckedChanged() cboxRemNo.CheckedChanged() cboxPrepay.CheckedChanged() cboxPayWith.CheckedChanged() cboxDebitCredit.CheckedChanged() End Sub A: This is working fine for me, see the output of this code. You are not seeing a CheckedException because the CheckBox objects are not in the visible area of the form. If your checkboxes are in some kind of container (like a Panel), you should be able to check its events. William Prince, 3rd Duke of Albany William Prince, 3rd Duke of Albany, PC (11 May 1736-13 January 1806), styled Duke 6d1f23a050
