The other possible cause is that you have multiple MimeTypes.rdf files in different places installed on your computer. If you have Thunderbird open use the Tools menu (or Ctrl+K) and select Migrate Profile to import MimeTypes.rdf. Other possible reasons are duplicated profile folders or incorrect profile permissions which could be verified by going to ~/Library/Application Support/Thunderbird and right-clicking on one of the profile folders and selecting Move to Trash from the context menu. [Drainage of lymphoceles after irradiation with 200 Co gamma rays]. In surgical treatment of irradiation-induced lymphoceles, the new operative method described by us and based on extreme mini-laparotomy drainage is presented. Its indications and contraindications are discussed. A new method is provided for drained lymphoceles to be enabled to control their size using a scaling-down in the size of a drainage tube. The effectiveness of the surgical treatment of small and medium-sized irradiation-induced lymphoceles is estimated at 100%.SENTENCES. CROSS EXAMINATION. By the Recorder. Mr. A. S. L. Cross, a trader at Hunmanby, was examined before the Committee of the c6a93da74d
